AVS 3010 keyless entry

Sometimes you may not want a full car alarm system but you do want keyless entry, or central locking from remotes.

If so, then the AVS 3010 keyless entry kit is the answer. Once you have this fitted you can lock and unlock all the doors in your car* from the waterproof remotes but there are no alarm features.

And the best thing with the AVS keyless entry kit is the remotes are waterproof.

The AVS Keyless Entry system can be upgraded with any of the 3010 range features at a later date should you wish to add alarm features and immobilisers to your system.

*Some cars require additional parts or installation charges.
Installation charges may vary by location. Ask your local 5 Star Car Alarm installer today for a quote for your car.

Design and specifications subject to change without notice.
Note: All products come with full Manufacturers Warranty.
