

Product Specifications

Why your customer will want the AVS GSM Communicator ...

The AVS GSM Communicator is at the forefront of TXT communication devices and is packed full of features including low credit warning and arming/disarming the alarm via TXT.

- ✓ If the alarm is triggered it will send TXT notification to up to 3 mobile phones
- ✓ The module arms automatically when the alarm is armed
- ✓ Secure four digit pin number
- ✓ Sends a TXT when the prepay credit is getting low
Solves the biggest hassle for customers who forget to keep their pagers regularly topped up
- ✓ Arm and disarm your AVS alarm via TXT
Perfect for those times when the remote has gone flat and the vehicle is immobilized
- ✓ Audio surveillance for up to one minute from a programmed number
Listen in at any time to hear what is going on inside the vehicle
- ✓ Three year warranty
- ✓ Compact and robust design
The compact size of the GSM Communicator makes for a great install where thieves cannot find and disable the unit
- ✓ Receive a status text from the unit at any time
The status text will show if the alarm is armed or disarmed, cell coverage and more

Plus use the full GSM Communicator for so much more:

- ✓ Full custom installs
The AVS GSM Communicator can also be used for a huge number of applications with two TXT controlled outputs, two inputs, and heaps of programmable options. It can run as a full alarm with entry delays, siren drivers, wireless sensors etc.
- ✓ Control central locking
Central locking can be hooked up to the arm/disarm outputs so it can also be controlled via TXT message
