

Pioneer DEH-2100IB Car CD player with direct iPod® control

Pioneer's 4 Channel High Power WMA/MP3/CD Player with Direct Connection for iPod. Connect an iPod nano or iPod to the new DEH-2100IB and you can control menus, shuffle functions, songs, podcasts and audiobook chapters in the iPod on the face of the CD unit as quickly and easily as you would on the iPod itself. It also recharges your iPod while its playing through the unit.

Features:

Front Aux-In Connection

Hook up your portable music devices with ease in an instant. Each new Pioneer head unit has a built-in AUX input on the front panel so you can connect your iPod, MP3 player and other portable music devices.

Direct Connection for iPod

Connect an iPod nano or iPod and you can control menus, shuffle function, songs, podcasts and audiobook chapters in the iPod through the head unit interface as quickly and easily as you would on the iPod itself. Your iPod battery also recharges while in playback mode and a new USB mechanism speeds up "List Search" iPod cable included. iPod and Software Versions compatible with the DEH-2100IB are:

iPod Model	Software version
iPod fourth generation	3.1.1
iPod photo	1.2.1
iPod fifth generation	1.3.0
iPod mini	1.4.1
iPod nano first generation	1.3.1
iPod nano second generation	1.1.3
iPod nano third generation	1.1.2
iPod classic	1.1.2
iPod touch	1.1.4

Built in 50W x 4 Channel High-Power MOSFET Amplifier

To minimize voltage loss in its head unit amplifiers, Pioneer built-in high-performance Power MOSFET integrated circuitry into all its head units. The MOSFET amplifier processes signals more efficiently at 50W x 4 maximum total output. This reduces distortion to virtually nothing at high frequency ranges giving you great clear sound.

EEQ – Easy Equalizer

You can adjust the sound according to the music you listen to. Switch between five preset equalization curves (Super, Bass, Powerful, Natural, Vocal, Flat) simply by pushing an EQ button. You can also boost the volume. Select among three levels of loudness (high/mid/low).

Detachable Face Security

All Pioneer entry-level head units have a detachable face that you can hide away or take with you when you park.
