

M20 / M24

Remote Controlled Immobiliser & Alarm System

The **M20/M24** models are simple to use vehicle security systems incorporating an engine immobiliser and full alarm system. The security system is either armed manually by the remote control or can be programmed to arm automatically after the last door is closed.

The **M24** is a full 24 volt version suitable for any 24 volt vehicle.

M20S
