

# MX40

## Remote Controlled Dual Automatic Immobiliser

The **MX40MKII** is one of our most popular immobiliser models as it meets almost all insurance company requirements. It offers high security and is well priced to be market competitive. It is more than just an immobiliser as it can provide basic alarm functions to protect bonnet, boot & doors as well as glass protection via the glass break sensor or a single stage shock sensor. AS/NZS 4601 2003 Immobiliser Standards certified.
