

## NAVMAN MY30

### Navman MY30 GPS Navigation System

With its compact size and 3.5" screen, you might think the MY30 also has limited capabilities. Think again. This intelligent little travel companion is proof that good things come in small packages.

Clear, detailed voice guidance informs you of more than just street names and turns. You'll hear easy-to-understand instructions including distance to your turn and location information such as "In 100 metres at the traffic lights, turn left into Smith Street". Preloaded Safety Alerts also help keep you on track while you drive, with information about Speed and Red Light Cameras.

With up to 100,000 Points of Interest built-in as well as a range of handy features, you'll always find whatever you're looking for with ease.

#### Features:

- Tap and Slide Touchscreen
- Smart Find™ Keyword search
- Optional Live Traffic Updates available
- Preloaded Safety Alerts
- Speed Limit Alerts
- Spoken Street Names
- Petrol and Parking Shortcuts
- Digital Logbook
- SOS shortcut for emergency services
- Up to 100,000 Points of Interest (POI)
- Optional Wcities™ Travel Books (Christchurch sample city supplied)

#### Detailed Features:

##### **3.5" Touchscreen** with Slide or Tap options for ease of use

**Smart Find™ Keyword Searches** It's quick and easy to find your destination with a Navman MY-Series GPS. Navman's Smart Find™ technology allows you to type in the address you're looking for in any order you want (numbers, street name, suburb, venue name) – whatever suits you. The MY-Series will narrow

down your search as you type, meaning less taps of the screen to get you where you're going. Once you've found your destination, select it and you'll instantly be shown the best route to get there.

**Pre-loaded Safety Alerts** to keep you out of danger and out of trouble

**Spoken Street Names** - Never miss a turn thanks to easy to understand, detailed voice directions and spoken street names.. You'll also enjoy greater detail for better guidance. For example, instead of just saying 'Turn right in 200 metres', your Navman will say 'In 200 metres at the traffic lights turn right into Smith Street'.

**Petrol & Parking Shortcuts** - One touch and you will be given a list of petrol, parking, food or ATM's close to your current route.

**A Digital Logbook** lets you keep track of your trips and gives detailed reports when required, making expenses and tax time a breeze.

**Latest Map Guarantee** - If an updated version of your preloaded map becomes available, you can download it free of charge within 30 days of first using your qualifying device. Simply install the PC software included with your device, and attach your device to your PC. When you go online, your device will detect whether an updated map is available for you to download. The 30 day Latest Map Guarantee is available on the 2009 MY-Series range. Navman reserves the right to refuse a free of charge update where the preloaded map is over 12 months old.
