

BLAUPUNKT Monterrey MP35

Build your mobile sound system with Blaupunkt's Monterrey MP35. This versatile CD player packs a strong on-board amplifier for your speakers, and an X-Bass boost for fuller sound. MP3 compatibility allows you to pack up to 10 hours of music onto a single disc, and the player's intelligent indexing system makes it easy to find your favorite tunes while you're on the go.

Select from three tone presets -"Rock," "Pop," and "Classic" - for a quick sound adjustment, or tweak the bass and treble settings for a custom acoustic mix. You can customize the style, too. Monterrey's flip-down faceplate includes a large LED display screen with more than 4,000 variable background colors. Set it to match your interior, your musical taste, or your mood - it's all up to you.

Want more? You can also connect to an external audio source such as an iPod or other MP3/WMA players via the rear auxiliary input with the Blaupunkt 3.5mm jack interface, or the Blaupunkt iPod interface.
