

Q310

ROOF MOUNT DVD PLAYER

Long car journeys will never be the same again.

"Are we there yet?" will be a thing of the past once you have your own rear seat entertainment centre.

Our roof mounted 9.2" LCD colour screen with integrated multi region DVD offers excellent picture quality and flips up neatly out the way when not in use.

You can listen to your music in the front, or just silence, as it's possible for your rear passengers to use the optional infrared headphones to watch DVD's or listen to their own music from CD.
