If you want the new benchmark in GPS, you want a Navman.

With the S-Series Platinum range, Navman has created the new benchmark in GPS navigation. Using advanced Glide Touchscreen technology, superior guidance, the highest quality map information; including speed camera alerts, a user-friendly menu and an array of features that go beyond expectations, the Navman S-Series Platinum range is taking GPS further than ever before.

If you want the benchmark in GPS...

Slimline Design

At only 13.5mm wide, the slim, metal cased, stylish design of the new Platinum range means you can take it with you wherever you go.

Glide Touchscreen

Enjoy your smoothest journey ever with Navman's new Glide Touchscreen technology. Easily scroll through the simple menus or glide around maps to see more detail of your surroundings.

Location Capture Button

If there is a special destination you want to remember, the S-Series Platinum range lets you capture it with the simple press of a button. A great feature when you want to return to that café or hidden gem you just discovered.

If you want reliability guaranteed...

2-Year Warranty

We're so confident of the quality and reliability of our S-Series Platinum range that everything contained in the box is covered by a 2-year warranty.

Navman Map Guarantee

If we bring out a new map within 30 days of your Platinum unit purchase, we will provide you with the new map free of charge.

If you want user-friendly menus...

The S-Series Platinum user-friendly menu has set a new benchmark in GPS use making it easier than ever before.

Intuitive Address Search

The keyword search and predictive text allows you to type in your information however you choose, narrowing down your search as you type, making it easier and quicker than ever before.

"Go" - Enter the address you need to go to by typing in a specific destination as you would write it on an envelope.

"Find" - Perfect for navigating to a specific location or Point of Interest (POI) using a keyword search. Search for a place, business or park just by typing the name.

"Explore" - Designed to help search and explore an area near your destination or while on the move.

And while en route, the search menus sit to the side of the screen for easy, one-touch access.

If you want a safer way to drive...

Spoken Street Names

Enjoy easy to understand directions with clear spoken street names.

Speed Camera Alerts (optional free download)

The S-Series Platinum range offers Speed and Red Light Camera Alerts for enhanced safety as an optional free download.

Bluetooth™ Connectivity - free your hands

Navman's built-in Bluetooth™ feature turns your Navman into a hands-free car kit, allowing you to safely make and receive calls without interrupting navigation.

*available S150, S200

FM Receiver/Transmitter

This allows you to play music files, the Navman voice guidance and even Bluetooth™ connected phone calls through your car stereo.

*available S200

If you want more information at your fingertips...

Superior Map Data

GeoSmart™ is the leading provider of map data in New Zealand, with comprehensive, up-to-date map information for both the North and South islands.

Shortcut Buttons

The dedicated shortcut buttons will find the closest petrol and parking with a single touch.

Mileage Expense Reporter

Record your trip details and output mileage reports to make doing your expenses and taxes simple.

Overseas mapping

Global maps including Western and Eastern Europe, USA and Canada are contained in the box with your unit.
