TRAX 350  
TRAX 325

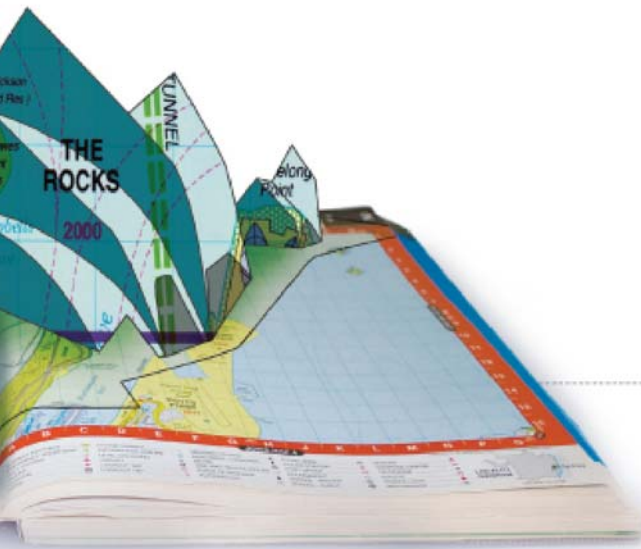

Uniden's TRAX series Car Navigation Systems utilise sophisticated GPS technology. All models come complete with the latest Sensis Mapping, offering a powerful solution to guide you from A to B.

Introducing the latest in GPS car navigation technology, Uniden's TRAX series is designed for users that want exceptionally user-friendly, high quality in-car navigation systems designed specifically for Australia and New Zealand, with global mapping available. Whether you are travelling for work or enjoying a drive to a new destination, Uniden's TRAX systems will guide you there using the easiest route available. The range

offers the most accurate turn-by-turn instructions with integrated Spoken Street Names (Text to Speech - TTS) technology in every model. When it comes to portable GPS car navigation systems the TRAX series is in a class of its own. Each model will make your trip safer and faster, while giving you peace of mind that you will reach your destination on time, every time.

## 360° 3D LANDMARKS

Imagine driving from A to B, seeing famous surroundings in 360°. Well this is now a reality with the innovative 360° 3D Landmarks feature on Uniden's car navigation systems. This feature allows you to enjoy viewing famous landmarks in 3D, such as the Sydney Opera House, Melbourne Cricket Ground (MCG) or Sky Tower in New Zealand. View the landmarks from any angle or fly around in 360°.

Please note 360° 3D Landmarks is not available on the TRAX 325.

## 3D TERRAIN

Users can see 2D land contours, plus 3D road overpasses and bridge elevations, portraying a more realistic landscape to ensure accurate navigation.

# THE TRAX SERIES PORTABLE GPS NAVIGATION SYSTEMS PACKED FULL OF FEATURES

**Early Warning Safety System** – Nationwide Coverage:  
Fixed Speed and Red-Light Camera Warnings and  
Over Speed Alert.

**TMC (Traffic Message Channel)** – allowing you to  
receive broadcast traffic information, diverting you to a  
faster route\*. Please note a subscription is required.

Please note: TMC Function is only available on the TRAX 436.  
This feature is not available in all Australian States or New Zealand.

**High Definition Non-Reflective LCD Display** for crystal clear viewing and **Spoken Street Names (TTS)** giving the most accurate turn-by-turn instructions.

**POI/Multi Destination/Route Planning** – Up to 600,000 Points of Interest (POI) data\*, Personal Routes and ability to plan fastest, shortest or most economical route.

**Bluetooth® Capabilities** – Integrates with your Bluetooth® enabled mobile phone to allow for hands free communication.

**Simple Mode or Advanced Mode** – allows ease of use for the beginner to the most experienced user.

**Automatic Day and Night Mode Switching** for easy glare-free viewing.

**Lane Indicator** visually indicates the appropriate lane to use.
