

uniden

Uniden VS255XR

Ideal for The motor vehicle enthusiast seeking a quality yet affordable protection system for their vehicle.

This alarm system offers an effective range of protection features for your motor vehicle. It offers protection for not only your vehicle, but provides a level of personal protection with its personal panic alarm feature. Key protection features include door protection and a dual stage shock sensor. The rolling code remote control keys operate multi features of the alarm and also act as a personal panic alarm. For added convenience this alarm has a central door locking output and has a remote control key that can be configured to operate a second vehicle. D.I.Y installation is possible.

*** Comes with 12 months warranty but with a NZSA certified Installer this warranty is extended to three years.**
