

WATCHGUARD DIGITAL ALARM SYSTEMS

A range of professional grade, monitored, wireless alarms and accessories for home or office that are designed for easy DIY installation

THE ESSENTIAL SYSTEM

The Essential system includes everything you need to install and operate your alarm. Simply arm the alarm via remote and if movement is then detected by either of the PIR motion sensors the communication dialer will transmit the activated zone via phone line to your monitoring centre.

The Essential system includes:

- 1 x main control unit (including communications dialer)
- 2 x wireless PIR motion sensors
- 2 x remote controls
- 1 x power supply
- 1 x phone connection lead

THE PREMIUM SYSTEM

With all the features of the Essential system, the Premium system also includes a wireless solar powered siren and a keypad for added safety and functionality.

The solar siren is wireless for easy installation and provides 40 days of sun free continuous use once charged. It has a powerful 105dB siren and blue strobe light built into a durable weather and tamper proof housing. It provides an audio and visual confirmation of arming/disarming and alarm trigger.

The wireless keypad is powered by a 9v battery with user programmable 4 digit pin code. It has a backlit display, a low battery light, a flip down cover and is waterproof. It allows for multiple users.

The Premium system offers everything you need for a safe and secure home or office.

Premium system includes:

- 1 x Essential system
- 1 x wireless solar siren
- 1 x wireless keypad

WATCHGUARD BENEFITS:

- Add up to 8 wireless sensors including PIRs, smoke detectors, reed switches, panic pendants and more
- Long life Lithium batteries on sensors - up to 3 years
- Low battery warning on all sensors
- Tamper detection on all parts including the main control unit and wireless accessories
- Easy DIY installation with manual provided

MONITORING SERVICE OPTIONS:

Full monitoring \$30 per month:

The monitoring company will advise your contact list via phone, SMS, email or fax on alarm trigger (including triggered zone), panic alert, or sensor low battery warning. Full monitoring ensures contact is made on an alarm event. You can also arrange for a guard call out (additional charge).

Notification only monitoring \$15 per month:

Your nominated contact list receives an email or fax on alarm trigger (including triggered zone), panic alert, or sensor low battery warning.
