

# YOUR JOURNEY, YOUR MUSIC

iO PLAY opens up the world of Music streaming & Mobile Phone Handsfree possibilities. iO PLAY allows the use of portable audio devices – such as MP3 players, mobile phones and Sat Nav – through your car stereo system simultaneously and wirelessly using Bluetooth technology. iO Play has been designed primarily for the music lover, but possesses the added benefits of enhanced hands-free and Sat Nav functionality.

## MAIN FEATURES

Stream Music from any of your Portable Devices wirelessly into all your existing vehicle speakers.

Specially designed technology for your portable satellite Navigation Voice Instructions.

Simultaneously make and receive phone calls while streaming music from a 2nd portable device.

Easy to use iO PLAY control console, which can be mounted anywhere in your vehicle.

Make your journey more exciting with excellent sound quality and performance, using Class-D Amplifier Technology.

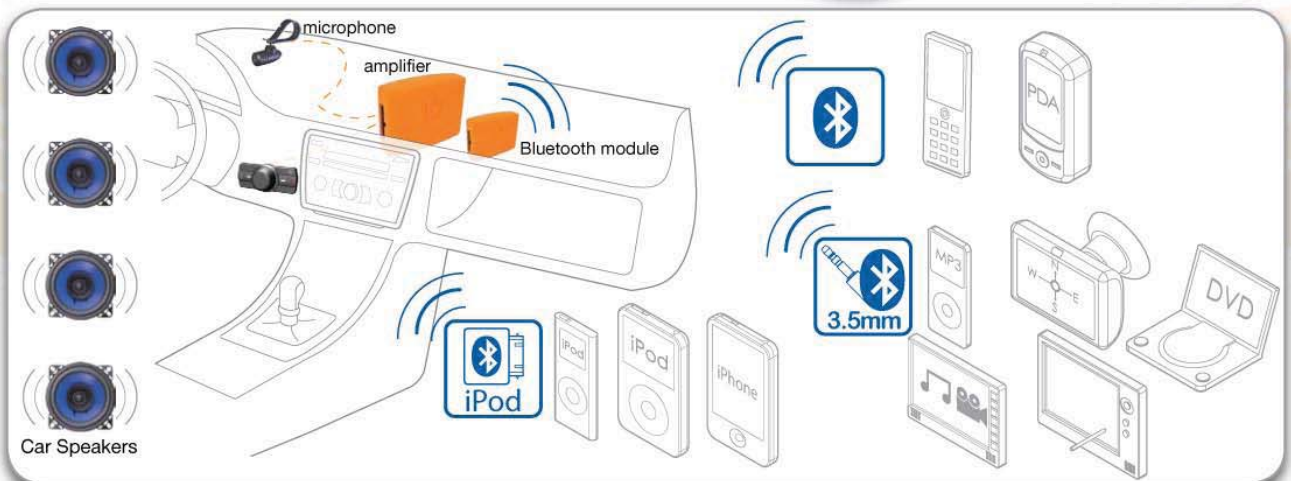

All your connected audio managed the way you need it to be with "iO" AudioSense Technology.

Innovative design that will easily fit your vehicle and your audio system.

Enjoy auto-connect when you enter your vehicle by storing up to 5 portable devices in iO PLAY memory.
